EDUCATION

B.E. + M.E. Computer Science Engineering, Chandigarh University	2022 - Present
CBSE (Class XII), Gudha International School, Jhunjhunu (Raj)	2021 - 2022 91%
CBSE (Class X), RSV Senior Secondary School, Bikaner (Raj)	2019 - 2020 80%

EXPERIENCE

Full Stack Engineer (Internship) <i>Cube Founders Space</i>	Jul 2026 - Present Lucknow, Uttar Pradesh, India (On-site)
- Building MakerSpace, a web app that turns a plain-language prompt into a full hardware design: wiring diagram, bill of materials, mechanical CAD and step-by-step assembly guide. - Developing with Next.js, React and Supabase, including team formation and collaboration features such as team chat and join/invite requests.	
Technical Lead (Internship) <i>CU-TBI Technology Business Incubator, Chandigarh University</i>	Jan 2026 - Jun 2026 Chandigarh, India (On-site)
- Led development of an integration that lets users access their Tally Prime data directly from AI agents such as ChatGPT and Claude. - Enabled direct commands from an AI agent to update and modify records in Tally Prime.	
Web3 Developer (Internship) <i>Anon / Arweave</i>	Jul 2025 - Dec 2025 Remote
Created smart contracts and built tokens that make connecting a wallet easy.	

PERSONAL PROJECTS

C-Hub	chub-dashboard.vercel.app
- Web platform for a startup incubator, covering its programmes (IdeaSchool and Incubation), campus infrastructure, portfolio startups, investor and partner ecosystem, and mentors. - Includes startup applications with sign-up and login, an admin portal, a library and a startup jobs section. Deployed on Vercel.	
Clutch	13.60.255.237:8000
- Internal application for all university departments to host and manage any type of event: get approvals, and send and accept invites. - Working to expand it to the outer campus as well.	
MakerSpace	makersspaces.online
- AI hardware design tool: describe a machine in plain language and get wiring diagrams, a sourced bill of materials, 3D mechanical CAD with print specs, and assembly steps in one workspace. - Matches parts against real supplier catalogs (Adafruit, SparkFun, Digi-Key, Mouser, LCSC, Seeed Studio, Arduino) and lets users edit a design by conversation. - Includes a community gallery of published builds and a build contest for makers.	

TECHNICAL SKILLS

Basic Programming Languages

Web2 and Full Stack

Frontend: React.js, Next.js, TypeScript, JavaScript, TailwindCSS, Three.js, GSAP

Backend: Node.js, Express.js, Spring, REST APIs, WebSockets, WebRTC

Databases and ORM: PostgreSQL, MySQL, SQLite, MongoDB, NeonDB, Redis, Supabase, Prisma

Web3 Development: Smart contract development, Web3, token development, wallet integration

Web4 and AI

LLMs and Agents: OpenAI API, AI SDKs, LLM Fine-Tuning, Agent Orchestration, AI agent integrations (ChatGPT, Claude), Tally Prime automation

Tools and Deployment: Git, Vercel

Other: Project management, team leadership

ACHIEVEMENTS

Hackathons & Competitions

- Won 20+ national hackathons
- Won 3 international hackathons
- Mentor in the college's internal SIH (Smart India Hackathon)
- Star Student Award 3 times in a row (2nd, 3rd and 4th year)
